RE: MAY GENERAL REPORT

We would like take this opportunity to thank each and everything you are doing for the Lord especially for orphans, we know it is not easy to help but you sacrifice for the orphans we really appreciate so much. These orphans were lacking shoes and clothes and you provided to some of them which is much joy for them but still they lack school fees since most dropped out from school due to the lack of school fees. As orphans without you, they can't survive but with you they can be important people around the world. It is very unfortunate that some are still homeless and they are street kids begging food to survive but together we can make changes for these suffering kids by adopting them, if we get families who can adopt kid per kid we can easily change their lives. These kids are clever and good behave even are God fearing but they lacking parental love and care which we can provide as long as we feel in our hearts and decide. To help a kid doesn't need to have much money but to have willing and feeling. I feel cry due to the way these orphans are suffering without families to take care for them and without schooling yet they deserve to study. Thank you for your love and prayers.

Yours in faithfully

.....
BP. BYAMUKAMA EMMANUEL
