## **RE: WATER PROJECT REQUEST**

*We greet you in the name of Jesus Christ, on behalf of Ugandans especially in rural areas we have a big problem of water as you see in videos I sent to you, we have 4 villages that are affected by lacking water and drinking dirty water as you see in videos I sent to you, most people die due to dirty water like people from Rindimura area, Karuuko, Kakiseke and Kijwenge and these areas is where we have different orphans that are under our organization. We know that your love and support can make changes in these societies as you leave legacy in Africa. Anyone who will support us we shall really never forget him or her and we believe if we hold hands together we can make it and people get better life because there is a saying which says that water is life. So once you support us with clean water it means you have given us life. If all these areas get water, this project is to benefit around 18000 people in our area.*

***The following pictures show people requesting you to have mercy and support to have clean water***

**YOUR SUPPORTS MEANS A LOT.**

***Yours in service***

***Bp. Byamukama Emmanuel***  
***President Goahead mission Uganda***
